

# The Garden Park

*Trago Mills, Newton Abbot, TQ12 6JD*

*Sheila Haycox ARPS MPAGB/AV EFIAP*

The Garden Park is massive. It was designed by Chelsea Gold Medal Winner, Paul Stone and the Architect was Charles Hunt and was built in 2009.

In addition to thousands of plants and landscaping you'll find 12 stunning show gardens which include the Devon Garden (complete with clapper bridge and mini pub), Sensory Garden, Canal Street (with full size barge and locks), Japanese Garden, Railway Children Garden...and more. Offering a quiet place amongst busy retail areas, these gardens will delight and inspire you.

A very peaceful place with lots of different corners, statues and a real variety of planting. A pleasure to go round., so much to see whatever the time of the year.

I have visited it several times and always enjoy the different sections of the garden. It is laid out with different areas representing different types of gardens as seen in the image below .

Although Trago Mills is normally a very busy retail shopping centre few shoppers rarely visit this garden. I would highly recommend a visit, you will be surprised.

Roman Garden

A very peaceful place with lots of different corners, statues and a real variety of planting. A pleasure to go round, so much to see.

Canal Street and Cottage Garden

Japanese Garden
