

## EAST ANGLIAN

Dear Jonathan

### Advisory Days

We recently ran an Advisory Day for **Licentiate** in Foxton, Cambridgeshire. Although the event was fully booked we only had a very short reserve list. Since that event I have received several requests for dates of other L Advisory Days. As you are aware we are about to switch web site so I have not placed any of the 2020 advisory dates on the existing web site.

Ahead of the release of the new website I would like to advise what the plans are for L Advisory in 2020 and with your input we will aim to satisfy everyone's L requirements.

**Norwich – Sunday 15<sup>th</sup> March – LRPS Advisory Day.** Both Members and non-Members for Advice. The booking will be available on line from the new website launch day.

**Norwich – Sunday 15<sup>th</sup> March – LRPS Workshop.** In parallel with the Advisory Day we will be running a Workshop, which is aimed at people who are new to the RPS Distinctions System. The different levels and categories will be explained, and there will be plenty of opportunity to look at different, successful panels and sequences. There will also be practical panelling and sequencing exercises, with lots of chance to ask questions during the workshop. The booking will be available on line from the new website launch day.

**Foxton – Date not confirmed** – To allow planning for a further date at Foxton can you please e mail me at [eastangliaweb@rps.org](mailto:eastangliaweb@rps.org) to register your interest. The numbers will determine whether or not to run a Foxton event in 2020, but also whether we may need to run two events. We should be able to achieve this but planning must start now and no dates will be organised until Norwich is fully booked.

**ARPS – Travel, Documentary or Applied** – We are still looking for interest in this proposed event. The Advisors are only available on the August Bank Holiday weekend. I have extended the expression of interest until 15<sup>th</sup> December to allow it to have time on the new website. A decision on running the event will be made after that date.

**ARPS / FRPS Nature** – Many within the region have requested information on Nature ARPS. A Nature Advisory for both ARPS and FRPS has been organised and is currently available to book on line through the existing website. Please search the Nature Group. The event is on 18<sup>th</sup> April 2020 in Smethwick. Follow this address to go direct to the booking.

If you have any further Advisory questions please do mail me.

Kind Regards

Regional Organiser

Jonathan Vaines

Acting Regional Organiser
