

Dear Jonathan

Website

I do hope that you have all logged into the new website, which launched at the end of November, and had chance to take a tour around it. The first thing most members will notice is that there is no direct connection to either Regions or Groups. I have received several requests that this is changed, however, I can confirm it will not. It's not that we are not there, we are, so please do type the link below into your browser, it will take you directly to the home page of East Anglia <https://rps.org/ea/home>

We have much more freedom with content than with the previous site so do help style the web with me. I have started with three main pages, News, Events & Advisory. News starts with our Feature and the first one is a recent successful Travel panel by John Dunn ARPS. The feature will change every two months. We are not just looking for panels, a small project or a set of images that you enjoy which will make good reading for the membership. We will also show a small gallery of images from events and keep our newsletters in this area. The Events button will link you to our upcoming events and those we arrange with SIG's. Feedback from members over the past six months has brought me to review our Advisory offering. Many people could not locate them on the site so now I am able to put all the links to all the advisory days in one place.

Please do use the website for booking events as it is live and updated regularly where the Journal fails to provide current information.

Advisory Day & Workshop

We have a small number of places left on the March 15th Advisory in Norwich so please do book with me direct now on eastangliaweb@rps.org I will also run a waitlist for the event too so **act today**. Running on the same day will be a Distinctions Workshop aimed at those new to the process. It's a great place to pick up tips on image requirements, putting a panel together plus you will have chance to be hands on with panel planning. At the end of the workshop you will then be able to join the advisory for the remainder of the afternoon.

Regards

Jonathan Vaines
